HIS WHY

Racing to Raise Awareness for the American Heart Association

Before Jack ever sat behind the wheel, he was fighting for his life. As a young child, Jack underwent three open heart surgeries before his fourth birthday. Today, he races with purpose, raising awareness for the American Heart Association and showing other kids facing heart conditions that incredible things are still possible. Every lap he runs is proof of that.

First Full Year in Bandoleros

Jack has competed in select Bandolero races in the past, but 2026 marks his first full season of competition. He is planning to race as many races as possible this year and is eager to build on his 2026 Bull Bash championship win. His energy and enthusiasm for the sport are matched only by his determination.
